

November Yeti OC Meeting Summary

- Summary of usage and recent changes:
 - Usage constant over last 8 months, at near-capacity
 - Cluster is widely used: 300+ users have run at least one job
 - Recent queue changes (infiniband, GPU) working well
- Two minor changes approved:
 - Free tier: more CPUs at once, but for less time
 - Max time on infiniband increased from 36 to 48 hours
- Cluster working well – thanks to RCS/CUIT
- Minutes and slides available on SRCPAC website
